INDEPENDENT AUDITOR'S REPORT

To the Board of Directors and Stockholders of
Lucien, Stirling & Gray Financial Corporation

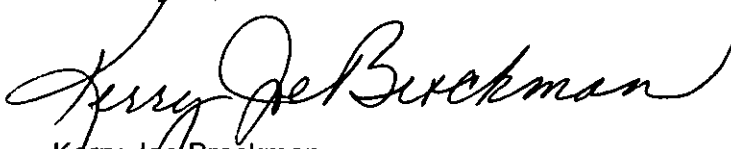

We have audited the accompanying statements of financial condition of Lucien, Stirling & Gray Financial Corporation (the Company) as of December 31, 2007 and 2006, and the related statements of income and changes in stockholders' equity, and cash flows for the years then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Lucien, Stirling & Gray Financial Corporation at December 31, 2007 and 2006, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the Computation of Net Capital Under Rule 15c3-1 of the Securities and Exchange Commission is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

(See Auditor's Report)

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Lucien, Stirling & Gray Financial Corporation (the Company), a Texas corporation, was incorporated on May 27, 1992, and engages in the purchase and sale of mutual funds, annuities, and life and health insurance products for its customers in public and private, wholesale and retail transactions. The Company is registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). As a percentage of sales revenue, mutual funds predominate in importance among the products offered. The principal market area for the Company consists of the Central Texas region. The Company does not maintain customer accounts and does not handle securities. Customers' securities and insurance transactions are recorded on a trade date basis with related commission income and expenses.

The Company accounts for income taxes under the provisions of SFAS 109. SFAS 109 uses an asset and liability approach in accounting for income taxes. Deferred income taxes are recognized based on tax effects attributable to temporary differences of assets and liabilities and loss carryforwards which are deductible or taxable in future years.

Depreciation is generally provided on a straight-line basis using estimated useful lives of three to five years. Intangible assets are amortized over the lesser of the economic useful life of the asset or five years.

The Company first acquired investments for long term holdings during the year ended December 31, 2000. These investments are restricted securities. All investments are shown at cost. The Company divested itself of all investments in 2007.

For purposes of the statements of cash flows, the Company considers its demand deposit account at a commercial bank, as well as funds held in a money market account at a securities dealer, to be cash. The Company has no other financial instruments which could be classified as cash or as cash equivalents.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - CAPITAL STOCK

The authorized, issued, and outstanding shares of capital stock at December 31, 2007 and 2006, consisted of Class A Common Stock, no par value, 90,000 shares authorized, with 15,000 shares issued and outstanding.

During 2007, the Company acquired 5,000 shares of Common Stock held as Treasury Stock. The Treasury Stock was acquired in settlement with a former officer and shareholder. See Note 8.

The Company has also authorized 10,000 shares of Class B Common Stock, non-voting, no par value, but no shares were issued and outstanding at December 31, 2007 or 2006.
